

Mohammed Nadir Mostefaoui

Product Designer · B2B SaaS & Enterprise UX

contact@nadirdesign.com · linkedin.com/in/nadir-mostefaoui · nadirdesign.com · Algeria · Remote

SUMMARY

Product Designer with 2+ years designing data-heavy B2B interfaces — ERP modules, sales dashboards, mobile-first apps, and multi-role enterprise platforms. I turn complex workflows into clear, consistent systems, with accessibility and Arabic/RTL built in from the tokens up. Sole designer on a live ERP product (5 modules end-to-end) and lead on a trilingual design system shipped at 1,033 variables / 24 components. EN · FR · AR · Remote.

EXPERIENCE

Product Designer · Nawat Studio Jan 2026 – Present

Algeria · Remote

- Lead product design for B2B SaaS and enterprise software clients across ERP, mobile, and web.
- Datamaster Analytics is the studio's anchor client — my concurrent Datamaster role (below) is that same engagement, delivered through Nawat.
- Manage and mentor a product designer — reviewing work, maintaining quality, and setting design direction.
- Deliver dev-ready Figma: design systems, IA restructuring, and rebranding for software products.

Product Designer · Datamaster Analytics Sep 2024 – Present

France · Remote · Contract

- Sole designer on a growing ERP platform — progressed from UI/UX to Product Designer within 3 months, embedded with business analysts, technical leads, and dev teams.
- Designed 5 core ERP modules end-to-end: B2B Sales, Purchase, POS, Finance, and Compatibility — each built for high data density and multi-role workflows.
- Led the platform's design system (Iksir): a three-layer design-token architecture with accessibility built in and a trilingual LTR/RTL foundation — shipped V1 at **1,033 variables and 24 components** on a live documentation site usable by non-designers.
- Designed a mobile-first Task Management App for retail warehouse teams across 2 full iterations, shipped to production.
- Leading an Information Architecture restructuring project ahead of a full platform redesign.

UI/UX Designer · Five Angles Mar 2024 – Dec 2024

Dubai · Remote

- Designed across varied client projects: a teacher-facing e-learning platform, a real estate platform redesign, and a case management system for a charity supporting divorced women.
- Delivered multiple landing-page designs for clients across various industries.

Co-Founder & Design Lead · Atqin Jun 2023 – Present

Algeria · Volunteer

- Co-founded a volunteer community of Algerian tech professionals; designed a system for a nonprofit Quran-clubs management platform and a website for a historic cultural establishment.
- Coordinate team projects and manage community growth.

SKILLS

Design: Product Design, UI/UX Design, Design Systems, Design Tokens, Information Architecture, Accessibility (WCAG 2.1 AA), User Research, Prototyping, Wireframing.

Localization: Trilingual UI design — Arabic / RTL, plus English & French (LTR).

Tools: Figma, Notion, ClickUp...

Platforms: Mobile (iOS / Android), Web, ERP / Enterprise SaaS.

Dev literacy: HTML, CSS, Python, SQL — enough to collaborate effectively with engineers.

Process: Agile, Scrum, Design Thinking, Stakeholder Communication, Developer Handoff.

LANGUAGES & EDUCATION

Languages: Arabic (Native) · French (Professional) · English (Professional).

Education: Self-taught in product design, with a Software Engineering background (Abou Bekr Belkaid University, Tlemcen).
